10th International Conference and Hands-on Workshop on **IEE / Endo Lumenal Surgery / Third Space Endoscopy**

Dear Friends,

Greetings from Pune, India!

On behalf of the Foundation for Research and Education in Endoscopy (FREE), it gives us great pleasure to announce the **10th Anniversary Edition** of the Annual **International Conference on IEE / Endo Lumenal Surgery / Third Space Endoscopy on 12, 13 & 14th July 2024 at Pune!**

It has been 10 years since we started this annual event, and year-on-year, this course has been one of the most awaited courses in this field! This specialty has witnessed unparalleled enthusiasm from global endoscopists and has been fueled by rapid paced progress!

Let us meet once again, not only to reflect on the success achieved in the last decade, but to also understand where we should go further! The theme for this year's course is – **"Find your ZEN!"** The theme emphasizes the importance of imbibing the proper Philosophy and Principles in addition to learning the Art and the Science!

The meeting will be conducted in a new interactive format for an enhanced learning experience. The focus of the scientific discussions will be to understand the principles, to identify and discuss common pitfalls and areas of troubleshooting during diagnosis and treatment, and to improve efficiency and safety while performing these procedures. These discussions will be supplemented by live cases streamed live from the Shivanand Desai Center for Digestive Disorders, Deenanath Mangeshkar Hospital and Research Center, Pune, India!

An expert panel of International Experts have already confirmed their participation for the meeting, along with our own galaxy of National Stars!

The one-and-a-half-day conference begins 11am on Friday July 12th till Saturday 13th evening, and will consist of Keynote lectures, clinical presentations, panel discussions and live case demonstrations. On Sunday 14th, we shall have a specially curated Hands-on Training Masterclass for tunneling, endoscopic resections and closure techniques using different devices! Refer to the scientific program for details.

Ten years and 3000+ satisfied attendees! Don't miss the uniquely crafted hands-on training experience!

For details of registration, scientific program, and other logistics, please visit our website – **thirdspace2024.freendoscopy.com** In case of any questions, we are also available on email – **freendoscopy@gmail.com** or on WhatsApp and phone on **+91 99215 33381**.
